DP-330/330L

With the Tally Dascom DP-330 series you can concentrate on your job and not on the printer. Although the printer is up to 10% smaller and 40% lighter than comparable models, it makes no compromises. A variety of interfaces and emulations allow the use of DP-330/DP-330L in different environments.

Whether water, dust or vibrations, this printer operates reliably. Whether in the basic variant DP-330 for receipt documents or in the label version as DP-330L. Thanks to different holders, the printer can easily install on mobile dollies or in vehicles.
