

# Postmate 6

High Capacity Vertical Stacker

Cabinet dimensions - H660mm  
L580mm W510mm

The Postmate 6 is a high volume easy to use stand alone High Speed Pressure Sealer based on proven technology, and incorporating a four roller seal unit. This system can also be used as a paper folder.

It has an in-feed capacity of 800 pressure seal forms (Based on 80-100gsm pre print) and cycles at a speed of 9000 forms per hour. Z, C, V (A4 & 14") and bespoke folds are available with the easy to use lockable fold plates. The fold plates are locked into position to prevent movement during machine operation at speed.

A useful feature of this machine is the 'Manual Seal', which allows the operator to process an individual or damaged form through the sealing rollers, removing the need to reprint.

The processing speed can be adjusted to suit the operating environment simply by selecting the required speed on the easy to use control panel.

This machine is ideal for customers with medium to large volumes to process where the deadline is critical.

The price of the PostMate 6 includes the Automatic Extending Conveyor which holds up to 500 printed forms and also provides easy unloading whilst processing. A cabinet is also included, which provides a suitable surface for the machine to operate and also provides storage.

An optional High Capacity Vertical Output Stacker is also available which holds up to 800 printed forms and also provides easy unloading whilst processing in sequence.

Delivery, Installation and Training included.

*Please note this system will have the capability to process inline to high speed laser printers. Please contact us for more details.*
